

PRESS RELEASE

Baptist Leadership Institute Clients Recognized for Quality

Quality People. Quality Service. Quality Outcomes. In healthcare, it takes quality to succeed. The Baptist Health Care Leadership Institute would like to congratulate our clients for being recognized by Premier for their dedication to quality – **Holy Family Hospital** in Spokane, Wash., **Rochester General Hospital** in Rochester, New York., and **St. Patrick Hospital and Health Sciences Center** in Missoula, Mont.

These three hospitals, along with 30 other organizations received the **Premier Award for Quality** in recognition of delivering outstanding patient care while reducing the cost of healthcare delivery and improving resource utilization. The Premier Award for Quality is distinguished by its consideration of performance-based criteria, including clinical quality outcomes, clinical process indicators, and resource utilization outcomes. Premier is an alliance of not-for-profit hospitals and healthcare systems.

“Just walking into these facilities, one can really notice that these organizations are dedicated to bringing quality health care to their communities,” said Brian Jones, Leadership Institute consultant. “We at BLI consider it an honor to be their partners in creating cultures of excellence.”
